

East Bay Hindu Temple — Website Redesign

PREPARED BY SYMBIO AI · symbioai.dev

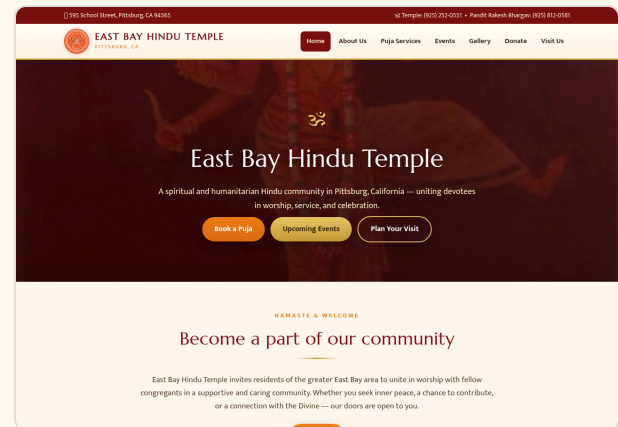

The opportunity

Your current website serves the basics, but on a dated template that's hard to read, not built for phones (where most devotees visit), and difficult to update. We rebuilt it as a clean, modern, mobile-first site that keeps a **traditional red & gold aesthetic** — and reuses your real logo, photos, and the deities your community worships.
