

East Bay Hindu Temple — Website Redesign

PREPARED BY SYMBIO AI · symbioai.dev

The opportunity

Your current website serves the basics, but on a dated template that's hard to read, not built for phones (where most devotees visit), and difficult to update. We rebuilt it as a clean, modern, mobile-first site that keeps a **traditional red & gold aesthetic** — and reuses your real logo, photos, and the deities your community worships.

● Current site

★ New redesign

What's included

- 9 pages, mirroring your current tabs
- Mobile-first, fast-loading design
- A **booking page that works** & real sponsorship tiers
- One-tap **donations** (PayPal/Venmo/Zelle)
- Click-to-call & live Google Map
- Your full **2026 festival calendar** — 116 dates
- Your current flyer as a home-page slideshow
- Easy for the temple to keep updated
